

SENATOR GORE ARRAIGNS TARIFF

Makes Opening Speech in Campaign for Congressman Saunders.

[Special to The Times-Dispatch.]
Chatham, Va., September 19.—The campaign of Congressman Saunders was launched to-day in an eloquent and comprehensive speech by United States Senator Thomas P. Gore, of Oklahoma, to one of the most enthusiastic audiences that ever filled Pittsylvania county courthouse, and no speaker has ever made a more favorable and lasting impression. His speech was one continuation of facts, founded on principles of Democracy, and his every reference to the opposing party was in a most courteous manner.

The Payne-Aldrich tariff bill was taken up and shown to be in direct opposition to the foundation principles of the government, and if such opposition was persisted in as it had been by the Republicans in the past, would result in disruption. The farmer, who is the very backbone of the country, was in no way benefited by the tariff, as he had to sell his produce in the open market, but in purchasing had to pay higher prices, which was due to the tariff alone. The tariff, he declared, was a burden to the masses but a special privilege for the classes, fostering trusts and monopolies, to which the housewife of the farmer paid tribute daily.

He said "that every panic and every stringency in finance had occurred under the tariff, and that the loss to his district and the Commonwealth, but to the nation.

The Republicans were addressed on the court green by Candidate John Mae Parsons, Colonel J. S. Browning, and S. H. Hoge, their speeches arraignment of the Cleveland administration and the Democrats generally.

Judge Jones Will Fill Vacancy.
[Special to The Times-Dispatch.]
Saluda, Va., September 19.—There is a vacancy in the office of county clerk of Middlesex, on account of the death of S. M. Eastman, who has had the office for a number of years. This vacancy will have to be filled by Judge Clegg B. Jones. There is much speculation as to whom he will appoint.

GLASSCOCK URGES HARMONY.

Republican State Leaders Working to End Factional Fight.

[Special to The Times-Dispatch.]
White Sulphur Springs, Va., September 19.—Speeches unqualifiedly endorsing the administration of President Taft were made by Governor Glasscock and other Republican State leaders at a conference of Republicans held here to-day in an effort to devise plans for harmony among factional fights in a half-dozen counties, which threaten Democratic success, unless the factions get together.

In making plans for the coming campaign, Governor Glasscock was practically made the "boss" of the party in the State, and will advise with other leaders in trying to settle the party differences.

Within a few days the Governor will issue an address, calling the Republicans to arms and pointing out the necessity of working together, and would win in November. A Republican campaign book will be issued within a week, and the campaign will be waged in earnest.

NEGRO AGITATOR WILL BE ARRESTED

Whites Determined to Force
Calvary to Cease His Dis-
turbance Activity.

[Special to The Times-Dispatch.]
Charlottesville, Va., September 19.—The negro agitator, Calvary, claiming to be an Abyssinian evangelist, but who for some months has been stirring up an angry feeling between the races in eastern Albemarle, has so far escaped arrest, however, and it is expected that one of them will be served to-morrow.

The excitement is in a community on both sides of the line between the counties of Albemarle and Louisa, and for that reason warrants have been issued in each county and put in the hands of their sheriffs, to prevent Calvary from escaping arrest by crossing the boundary.

The man up to two or three days ago continued preaching his doctrine of the superiority of the colored race, socially and otherwise, but since then the fear of arrest has seemed to restrain his unfortunate activity.

A physician from the north side of the county, who was in Charlottesville to-day, stated that some of Calvary's followers were from his section, but they were of the lower class of negroes. Around Stony Point the feeling has grown pretty strong against the agitator, he said, and from what he could learn there were several prominent residents who stood ready to join with the citizens of the east side of Albemarle in ridding the section of such an undesirable character.

A phone message to-night from the Keswick neighborhood stated that there were no new developments, but the significant remark was made that there would probably be some information to give out to-morrow.

A conference of whites was held Saturday, and the belief prevails that information was procured which will lead to Calvary's arrest within the next twenty-four hours.

EXPRESS PEOPLE WILL PAY TAXES

Now Understood They Will Not
Attack New Increase in
Courts.

STATE PRINTING AWARDED

Contracts Well Divided—Governor Appoints Lists of Delegates.

It is now the understanding among the State officials charged with assessing and collecting the franchise taxes from public service corporations that the express companies operating over railway and steamboat lines in this State will not contest the new taxation in the courts. At the time the rate was doubled by the Legislature at the last session, it was stated freely, and apparently by those who were speaking for the express companies, that there would be a refusal to pay the new rate, and that it would be attacked on the question of the constitutionality of the mileage system of levying franchise taxation.

During the hearings before the legislative committee on the subject, W. H. Shelton, representing the Southern Express Company, freely declared that the method of taxation of such concerns on the basis of the number of miles used was in violation of the constitution. When asked why the point had not been raised in previous years, Major Shelton said that the express companies had no desire to quarrel with the State, and would not do so as long as the taxation was reasonable.

Doubled Tax Rate.
Prior to this year the rate of assessment was \$2 per mile. The State increased this 100 per cent, making it \$2.00. After hearing the final plea of Major Shelton, the House Finance Committee lowered this to \$1.00, and the House agreed. The Senate adopted the House amendment.

Major Shelton declared that the \$2.00 rate would simply put his company out of business, as it would take all of its profits. He referred to the reports on file with the State Corporation Commission as to the receipts of the corporation.

Apparently the companies have now decided to pay the rate, which is double the former taxation, without legal protest. It was the contention of Major Shelton that express companies should be placed on the same basis with railroads, and charged 1 per cent. of their gross earnings. This the Legislature does not think a fair arrangement, since, unlike other public service corporations, they own practically no property in this State which is liable for taxation.

According to the last annual printed report of the Corporation Commission, there were then 4,213.32 miles of lines in this State over which the express companies operated. Of this total, the Southern had 2,629 miles, the Adams, 1,607.15 miles, and the United States, which runs only over the Baltimore and Ohio, 977.02 miles. The mileage is now supposed to be 5,000, which would make an income of \$50,000 a year from this source.

Delegates were yesterday appointed by the Governor to represent Virginia at the meeting of the Southern Commercial Congress, to be held in Atlanta on October 7, as follows:

SCROFULA HEREDITARY BLOOD POISON

Scrofula is a disease manifested usually by a swelling and ulceration of the glands, especially about the neck. It is almost entirely hereditary in its origin, being the dregs or remains of some specific blood poison. Where the blood is greatly weakened with the scrofulous poison, the disease attacks other portions of the system besides the glands, and then we see its effects in weak eyes, poorly developed bodies, running sores and ulcers, skin diseases, especially on the scalp, catarrhal troubles, etc. Scrofula usually makes its appearance in childhood, though manhood or womanhood may be reached before the poison progresses to the stage of outward manifestation. S. S. S. is the one real cure for Scrofula. It is a blood purifier without an equal, and it cures this destructive blood poison by removing every trace of the infection from the circulation. S. S. S., in addition to cleansing and purifying the blood, assists the stomach and digestive members in the creation of new blood corpuscles and other nourishing matter for the circulation.

Dr. A. S. Friddy, Superintendent of the Virginia State Penitentiary at Lynchburg, was at the Capitol yesterday. Dr. Friddy said that the new buildings are getting along nicely, and that the institution will be believed to be ready to open by March 1, 1911. It will receive about one-third of the 300 epileptics in the various State hospitals for the insane. The Legislature made appropriation for 100 to begin with.

Mr. Saunders at Work.

Mr. Owens Returns.
Ben P. Owen, secretary to the Governor, has returned from a visit to Senator and Mrs. Claude A. Swanson at Chatham. The fall rally of the Sunday schools connected with the Methodist Sunday School Union Association of Petersburg and vicinity, held yesterday afternoon in the High Street Church, was an occasion of great interest. The association comprises eight Sunday schools, including the two in Ettrick and Matoaca, in Chesterfield county, and all of them were fully represented in the meeting.

The attendance of both children and spectators was large, and fine music was a feature of the meeting. The formal address was delivered by the Rev. P. R. Chenaunt, of Washington Street Church.

Reports from the various schools showed the following organization for the past month:

Totals

Besides the regular monthly contributions, amounting to \$124, the schools yesterday contributed the sum of \$362.60 to the building fund of Blandford Church, to aid the congregation in the erection of a new and more commodious edifice.

Residence Burned.
The residence of Irvin A. Prince, at Stony Creek, Sussex county, was destroyed by fire Saturday night. The fire occurred about 9 o'clock, while Mr. Prince was in his store, and Mrs. Prince was away from home. Efforts were made by the people of the village to save the household effects, but with little success. The building was owned by Herbert Owens, of Fredericksburg. Mr. Prince had but recently furnished the home throughout, and it is said carried no insurance.

Commissary Robbed.
The Norfolk and Western Railway Company's commissary, located in the company's yard in the lower portion of the city, was broken into by thieves last night and robbed of a considerable quantity of supplies of various kinds, stored therein for sale to employees.

Interred at Petersburg.
The remains of J. A. Livesey, foreman of the Camp Manufacturing Company's plant at Arrington, near Franklin, who was killed by accident on Saturday, were brought to Petersburg yesterday and buried in Blandford Cemetery. Details of this accident, in which two men were killed and several injured, have been published in The Times-Dispatch. Mr. Livesey married the daughter of City Treasurer William E. Ramey, and was well known here.

Brief General News.
Miss Blanch M. Gentry has returned after a summer spent abroad, during which she traveled through England, Scotland and Ireland, and extensively on the Continent.

A report was prevalent here on Saturday that A. E. Whitmore, a well known young citizen, while visiting in New York last week had been killed. The young man put a quietus on the rumor and allayed all anxiety by putting in a safe appearance yesterday.

The public schools of this city opened to-day with record-breaking attendance. While figures cannot be secured to-night, it is admitted the schools are all crowded beyond their capacity.
